Ques: What grade has the IMF given to India's national accounts statistics in its annual review?

- A) A
- B) B
- C) C
- D) D
- E) None of the above

Answer: C

Explanation:

- The International Monetary Fund (IMF), in its annual Article IV review, assigned a 'C' grade to India's national accounts statistics, which include GDP, GVA, and related macroeconomic indicators.
- 'C' is the second-lowest grade in IMF's rating system, indicating methodological weaknesses and data limitations.
- IMF cited outdated base year (2011–12) and the use of wholesale price indices for deflators as major issues.
- It also highlighted discrepancies between production and expenditure method GDP estimates.
- Despite these issues, India received an overall 'B' grade across all data categories.
