

NEET 2026 – Important Topics (Colorful Handwritten-Style Notes)

■ Physics – Most Important Topics

Class 11:

- Physical world & Units and Measurements
- Motion in a Straight Line & Plane
- Laws of Motion, Work, Energy and Power
- Gravitation, Thermodynamics
- Oscillations & Waves – SHM, wave equation

Class 12:

- Electrostatics & Current Electricity
- Magnetic Effects of Current & Magnetism
- Electromagnetic Induction & Alternating Currents
- Ray & Wave Optics, Dual Nature of Matter
- Atoms, Nuclei, Semiconductor Electronics

■■ Chemistry – High Weightage Topics

Physical Chemistry:

- Mole Concept, Atomic Structure
- Chemical Thermodynamics & Equilibrium
- Electrochemistry & Redox Reactions
- Solid State & Solutions

Inorganic Chemistry:

- Classification of Elements & Periodicity
- Chemical Bonding & Coordination Compounds
- p-Block Elements, d & f Block Elements
- Hydrogen & Environmental Chemistry

Organic Chemistry:

- General Organic Chemistry (GOC) & Hydrocarbons
- Alcohols, Phenols & Ethers
- Aldehydes, Ketones, Carboxylic Acids
- Biomolecules, Polymers, Chemistry in Everyday Life

■ Biology – Must Revise Topics

Class 11:

- Cell: The Unit of Life, Biomolecules
- Plant Physiology – Photosynthesis, Respiration
- Human Physiology – Digestion, Respiration, Excretion
- Structural Organisation in Animals & Plants

Class 12:

- Reproduction in Plants & Humans
- Genetics & Evolution
- Biology in Human Welfare, Biotechnology
- Ecology & Environment – Ecosystem, Biodiversity

■ Tip: Focus on NCERT diagrams, examples, and previous year MCQs for all topics.

Best of luck for NEET 2026! – Stay consistent and revise regularly ■
