

# What is Share market?

---

- Share market simply means, a market where we get or buy shares.
-

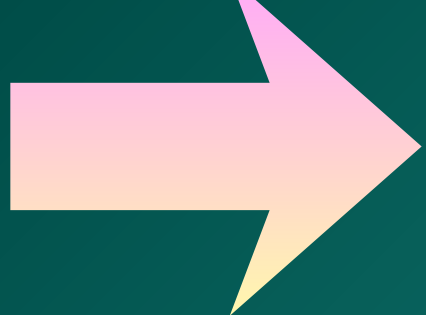

# History of Share Market

- In 1602, Dutch East India Company was started. It offered a plan towards the people mainly rich peoples that if the people would invest money to them, they would share their profit earnings made by ships to them.
- Many rich people started to invest money and in return they got profitable money. As the other sections of the people saw it, they started to invest money on it.

- Since the exchange of shares and capital were happening at Amsterdam( Netherland), therefore it came to be known as
- Amsterdam Stock Exchange.  
It became the first world's stock exchange in 1602.

## **Basics and Theory**

- When the first time any company share its profit to public, known as Initiate Public Offering (IPO).
- Thus, the first IPO happened in August 1602 by Dutch East India Company at Amsterdam Stock Exchange.
- Like Amsterdam stock Exchange, there are some Indian stock exchanges like Bombay stock Exchange (BSE), National Stock Exchange ( NSE), etc.

# Some Important Points

- The money you invest is called capital.
- The price of share increases when the company growth increases.
- Some of the companies listed in Indian Stock Exchanges are Tata, Pidilite, Asian paint and more than such 5,000 limited companies.

# What to do?

1. You need to have a job paying more than 5,000rs .  
You can earn by social media management, video editing, graphic designing, freelancing, etc.
2. Start investing at a fair price for long duration.

THANK YOU
